Dear friends,

We are class **4S** in Primary school Donja Šemnica. There are 9 of us in class and we are: David Hrvoj, Fran Bobek, David Šalković, David Risek, Mihael Ileković, Josip Horvat, Leon Golub, Sara Merkaš and Lucija Valjavec. As you can see there are only two girls in class, but three Davids! 😊

We live in a hilly countryside and in small villages. We love living here because during the winter we can sleigh down the hills, and during the summer the forest keeps the temperatures at a comfortable level. Ours is a beautiful countryside with lots of greenery, lots of forests and meadows and a lot of people have their own small farms here. Or they keep some animals in a barn behind their house. There are also lots of birds here and the air is fresh and nice. The only problem is getting somewhere. The buses don't drive very often and it's difficult to walk because of all the hills so we all keep a good shape. 😊

Our most favourite activity as a class is playing football. Our teacher takes us out every other day and we play football during P.E. classes, but also during our free time after school. The teacher divides us into two teams, one team always has an extra person than the other team but we

still have fun and do our best to win. We each have a different football club we support but most of us cheer for Barcelona, Real Madrid, Juventus and, of course, our national Croatian representation during the European or the World Cup.

We love to snitch on one another (we're all huge telltales) and we love to fool around and have all sorts of fun. After school a lot of us play with our siblings at home, we do our homework and study and on Sundays we have mass in our church.

We love pets and 6 of us have a dog and 5 of us have a cat at home (Mihael has 4 dogs!). Also, a few of us used to have a bunny as a pet, but not anymore. Most of us have pigs at home, 6 of us have chickens and Josip even has a cow. Five of us have rabbits (but not as pets) and Fran has a stray fox which sleeps in his barn every night but then runs away when he tries to come close to it.

We also love riding our tractors (especially boys), our fathers or grandfathers taught us how to do it, and David Risek even ploughs his own field with his tractor unit all by himself.

When we're not outside 4 of us play video games on our play stations and 5 of us use our mobile phones to play games because we don't have a PC.

We all get along great and love our teacher and our school.

Lots of love,

Class 4S

Teachers:

Suzana Pracać, school librarian

Božica Horvat, pedagogue

Aleksandra Podsečki, special education teacher

Kornelija Hršak, teacher of 4.S

Ružica Bujanj, english teacher

Principal:

Dragica Belošević
